John S. Battle's School Program For Virginia

I make the solemn promise to the people of Virginia that, if elected Governor, my paramount concern and most earnest endeavor will be to see that every child in the State, irrespective of where he lives, shall have the opportunity for sound public school education.

In other words, I shall strive for a public school system in Virginia second to none in the fundamentals of education.

I want to list here my answers to the many questions that have been asked me from time to time regarding the recommendations I shall to carry out my school plan.

1. How much money do you recommend as a gift to the localities for school construction?

Under my plan I will recommend that the General Assembly make available as a gift to the localities the total of $30,000,000 by July 1, 1950; and at least $15,000,000 each year thereafter.

2. Where will this money come from?

$15,000,000 of the first $30,000,000 will come from surplus in the state treasury; that is collections over necessary expenditures. The other $15,000,000 of the $30,000,000 will be appropriated out of the general fund revenue. This is available because on our present tax base, income should exceed necessary expenditures by more than that amount so long as business continues on the present level. And each year the General Assembly will be able to continue at least $15,000,000 as a gift to localities for school construction.

3. Will you make available any money as loans to the localities for school construction?

Yes, I intend to recommend to the General Assembly that $44,000,000 be made available by June 1, 1950 as loans for school construction to such of the localities as desire to avail themselves of it.

4. Where will this money come from?

$30,000,000 will come from the present teachers and employees retirement fund. This is no raid on this fund. This money is now invested and my recommendation will only transfer the investment to loans to the localities.

$12,000,000 will come from the state bond sinking fund. It is in excess of legal requirements. It is now invested. It too can be invested in loans to the localities for school construction.

$2,000,000 will come from normal increases to the Literary Fund.

5. Is there any plan that can make money available sooner for school construction?

Not so far as I know. A sales tax is the only other plan suggested and this cannot yield any money for school construction until late 1950 or early 1951. According to its sponsor, $30,000,000 is the maximum it can yield per year My recommendation will make $30,000,000 available in gifts by July 1, 1950 and at least $15,000,000 in gifts each year thereafter, plus $44,000,000 in loans during 1950. The candidate whose main platform is the enactment of a Sales Tax does not contend that present taxes will be reduced in the least, but they will remain the same because the revenue from the sales tax will be used for specific purposes and the revenue produced from it during the next Governor's term of four years will not be 1-3 enough to do the job proposed if no articles are exempt, even less if exemptions are allowed. Under it the people of Appomattox County will pay in addition to their present taxes approximately $98,550.00 each year and in four years $362,080.00. Today the individuals in Appomattox County are paying on land and personal property taxes about $75,000 per year. Therefore, under the proposed scheme of a sales tax our taxes will be more than doubled.

6. Suppose your plan will not furnish sufficient money to take care of the needs of the localities, what then?

I believe we can take care of these school building needs without additional taxes, but if further measures are necessary, I will not hesitate to recommend and support them. Today we know there is a definite need for school construction money for the localities. We do not know how much is needed, for there has been no state-wide standard used to determine the actual needs. When the next General Assembly meets we will have the benefit of the report from the commission now studying state and local revenues and expenditures with special emphasis on the school needs. This information is essential before a permanent school construction program and the policy for permanent financing can be established on a sound basis and to the satisfaction of the localities.

7. What about the salaries for our school teachers?

In addition to my provisions for school construction, we must provide a reasonable minimum salary for our school teachers and reasonable increases above the minimum. As to the exact amount of this minimum salary I am not willing to enter a bidding contest with the tax-payers' money, but teacher's salaries must be increased and this shall be a major objective in my recommendations dealing with our public school system.

I hope and believe that the recommendations of the Virginia Education Association as to minimum salaries for teachers can be put into effect.

8. What are your views on retirement benefits?

I am fully convinced that the retirement system must be revised, the provisions liberalized and the benefits increased. Above all, the system must be kept actuarially sound and still provide reasonable and adequate retirement benefits.

To Sum It All Up: Virginia must have the best school system possible. This is my supreme objective. I am confident that my entire program for school construction, increased teacher salaries and reasonable and adequate retirement benefits can be carried out without additional taxes. If, however, in the light of the report of the tax study commission or of future developments, any further measures should prove necessary to give Virginia the best school system possible, I will wholeheartedly recommend and support them.

Mistakes in Wearing Sun Glasses Could Cause Eye Damage

NEW YORK.—Two mistakes in wearing sun glasses can cause you serious eye trouble.

One is to wear them too much, except on the beaches or when they are in shady places or when they aren't really needed. Doing this can make your eyes less tolerant of ordinary light. Then, even moderate light may make your eyes uncomfortable.

The second mistake is to look directly at the sun. With very dark colored glasses, you might be able to do this without feeling pain or discomfort. But people who do this for even a few minutes have been made partially blind. The sun's rays actually burned holes in the retinas or back screens of their eyes. These people have permanent blind spots and see black circles in the middle of everything they look at.

Other persons got the same blind spots by looking at eclipses of the sun either too long or without proper protection. Heavily smoked glasses are best for observing eclipses.

The warnings on misuse of sun glasses come from the National Society for the Prevention of Blindness. Each summer brings new cases of people who have damaged their eyes, says Dr. Franklin M. Foote, executive director of the society.

The job of good sun glasses is to cut down glare or unwanted brightness that fatigues the eyes. Good sun glasses should absorb both the infrared, or heat rays of the sun, and ultra-violet light.

In loving memory of my husband, H. Y. Gowin, who passed away, June 11, 1948.

Husband you are gone but not forg otten,
Never shall your memory fade,
Loving thoughts shall always linger
Around the grave where you are laid.

You are sleeping, sweetly sleeping
In a new-made grave today;
We are weeping, sadly weeping,
For our darling gone away.

One by one the gentle Shepherd
Gathers lambs from every fold;
Folds them in His loving bosom
With a tenderness untold.

You are singing, sweetly singing
In the glory land above;
Where celestial courts are ringing
With the melodies of love.

One by one the Saviour gathers
Earthly saints all for His own;
And my loving husband joins
The chorus of angels 'round the throne.

You are blooming, brightly bloom ing
'Mid the fairest flowers of light;
In the garden of sweet Eden
Where the flowers never blight.

One by one the Father gathers
Choice flowers, rich and rare;
And transplants them in His garden
They will bloom forever there.

You are waiting, sweetly waiting
For the ones who loved you best;
And you'll gladly hail our coming
To the mansions of the blest.

One by one the Lord will call us
When our labor here is done;
And when we shal cross the river
We will meet you, one by one.

Oh, dear husband, how we miss you
None but God will ever know;
If tears and sighs could bring you back,
You would have been here long ago.

Sadly missed by wife & children.

Arthritis Sufferers May Get Relief Because of New Drug

ROCHESTER, MINN. — Four Mayo clinic physicians reported development of a compound credited with "significant promise" in treatment of rheumatoid arthritis, a crippling disease for which no cure is known.

However, they warned that the substance—known as "compound E"—was so rare that it probably would not be available from manufacturers before next year and could not be used immediately for treatment even at the Mayo clinic.

"No patient," said Dr. Philip S. Hench, head of the clinic's arthritis department, "has a prospect of being treated with compound E either here or anywhere else at least before January, 1950."

Hench was one of four Mayo physicians whose report on development of the adrenal cortical hormone compound—after 20 years of intensive research—was read at a staff meeting here recently.

The report was illustrated with moving pictures showing condition of patients before, during and after experimental treatment with compound E.

CANDIDATE'S CARD

To the voters of the Town of Appomattox: On June 14, you will elect a Mayor and six Councilmen. I am a Candidate for Councilman. I am not making an active campaign. I have been living in Appomattox 24 years, during which time I have watched our town grow, and I am glad to have had the opportunity of making a small contribution to its growth.

I served on the Town Council from Aug. 1936 to Sept. 1945, and I have always worked for what I thought was the town's best interest as a whole, and if I am elected, I will continue to do so. I am running on my record as a Councilman, business man and citizen.

If you can endorse my record, I will appreciate your vote and influence. I hope every qualified voter will go to the polls and vote, which is one of our greatest privileges.

Yours for a bigger and better Appomattox.
